Plan View – Ocean Grove Condominiums

All points were surveyed by TJ Slaton (registered professional land surveyor). Elevations (shown at each + mark) are referenced to NGVD (Benchmark is 300' SW of 91st St with ELEV of 14.93 (1987 adjustment)).

Water level at time of survey was 3.1' above sea level and matched the elevation normally for lake outflow level of 3.1'.
